Beautiful things happen when we all come together!

Peace! This glorious picture is from 2001 when 3kings productions sponsored a children's cookout at Riverbank State Park during show and prove weekend. Gods and Earths, brothers and sisters came from far and wide to add-on and participate in great food, games, basketball and roller skating. Family even came through to drop off food! Coming together, despite how different we THINK we are, we see that BEAUTIFUL THINGS CAN INDEED HAPPEN! Let's put this puzzle together and take things back...to the future!

PEACE!!

In the name of Allah, from the minds of his Suns, we greet you in our Universal Greeting...PEACE!

Welcome to the first issue of Back to the Future. We have spoken about doing a paper, magazine or some combined effort, in order to reach the masses in a humble effort to educate, inform and do what we so naturally do everyday which is TEACH! Sometimes, in order to go forward, you have to go back. Not backwards as in go in that direction, but to recall and bring forward those life lessons, that love, the respect and the TEACHINGS that we were blessed with and put them into practice nowadays! We as a nation are living proof that Allah World is Manifested and he AND his teachings will never die!

In the origin, it was said that we must UNITE the seeds. Given this format, we came together, one seed from each land to formulate a platform make this ideal manifested. Shortly, the number dwindled down to two, thus the bond between Medina and the Desert was now resealed! Three Kings Productions was created for the sole purpose of uplifting the Nation and bringing "that beat back." We have done many things, which include the Family cookout in Prospect Park, The Children's Ball (in Nubia), the Children's BBQ at Riverbank State Park, and numerous Father's Dances and Show and Prove Dances including the infamous Dance at the HARLEM STATE OFFICE BUILDING!! Every determined idea was realized and uniting the seeds extends to Children's Day in Medina, where we come together as ONE UNIT and born that reality. We as a unit, understand that we write our history in advance, a year to every mile! We make sure that EVERY idea has the children either involved or the result will improve their quality of life! Just US for ALL, a specific blueprint for planning field trips was presented to the nation a few years back. The time will

come for that as well as the Just Us for All SUMMER CAMP! Our goal is to teach and if you know one thing about us, ALL WE DO....is SHOW and PROVE!

The focal point of this publication is that it is for and about THE CHILDREN! Some may not be able to digest some of the content right now, however, they will come in their own good time. This is for the children to have an avenue for which to express themselves. Geographical location does not matter! If they want to be heard, we will publish their thoughts. We don't have to wait for the NYPost or Daily News to honor our children, we can do that ourselves. All too often our children's cries go unanswered and UNHEARD! Have you ever heard of something so despicable? Where would we be if Allah did not answer the call? We are a Nation FOR and ABOUT the children! So that falls on our shoulders!! Yours and ours! We have to make sure we are held accountable for our children and BE those examples they can look to for guidance and proper food! Mental food is what we mean!

So nation, we will build another wall to add on to the foundation that aids our children in their growth and development and WILLfully YOU and your babies will not only appreciate this avenue of expression, you will participate in its growth and development as well. We say everyday, SAVE THE CHILDREN, or SAVE our BABIES, yet there is no one that can save them except YOU an ME! Let's get it together!

If it ain't about the children, then it ain't about NOTHING!!!

PEACE

-CeeAaquil Allah-

We take this time to acknowledge someone who showed and Proved his power by aiding us, as a nation in the past and his efforts continued up until the day he returned to the essence of life. **Barry Gottehrer**, aide to Mayor Lindsey (NY), served as a liaison between Allah, (and others) and Mayor Lindsey. He was instrumental in assisting in securing buses for the young to go to Bear Mountain and other events, as well as helping us secure our National Headquarters....What is now known as the Allah School in Mecca. When needed, he assisted, and he will be missed. Peace and blessings to him and his family. **Peace**

Save the Children

All praises are due to our Father almighty God Allah lord of all the worlds

Thank you father for your blessings you've given to us to uplift ourselves from a state of unawareness of being blind, deaf, and dumb to the reality of who we are. Thank you Father for showing and proving to us the true culture of the Blackman, Black woman and black child. so we no longer will be slaves of a mental death and power and use for tools and slaves by the devil thank you Father all praises due to Allah now and forever.

P.E.A.C.E.

Now moving right along with the cipher at hand (THE CHILDREN) We were taught that children are the greatest wealth of a people as well as a nation and they should be protected, respected, and educated with supreme knowledge of their culture. This will ensure that our children's future be as bright as the sun of man that it comes from. For you see that it's all cause by the sun of man, so he must show and prove his power by taking responsibility for the growth and development of the children's knowledge of the universe (the universe is everything this is stated in the 9th degree in the 1-14 } this will leave no room for misunderstanding of anything !!! This is just the foundation of the fundamental aspect of the children gaining the true power and effectiveness of the knowledge of self. Through the application of supreme mathematics at home and abroad now as this is seen and heard everywhere the children our cream will start to rise with the respect, pride, dignity, love and the understanding values of their divine culture and start willingly giving all that they have and all within their power for their Nation and all the human families of the planet earth. This is thy Fathers will be done the uniting of the seeds for one common cause which is peace on earth the home of I-S-L-A-M. Yet there are so many children in the world that are still blind deaf and dumb to who they are and what they can become for the lack of knowledge of self. This is by the devil making them savages in the pursuit of happiness causing them living a beast way of life. Now this is where you and you and you come in as the original man, original woman, fathers and mothers of civilization God and Earth of the universe and teach what you know in a educational structures to reach the children to save their lives from the hells of this world. You see brothers and sisters the devil is "challenging you" for your children! He's saying that your universal principals of supreme mathematics no longer has magnetic powers that those teachings are a thing of the past and can not help the children now a day. That your 38th degree in the 1- 40 the only degree that states (other wise to show and prove that Allah is God always has been and always will be } is a **LIE** cause you are not showing forth and proving your power that your all wise and what???? **RIGHT-EOUS !!!!!!! THE DEVIL IS LAUGHTING IN YOUR FACE.**

Now you ask your self how? Cause the devil got your children fighting and killing one another. He also has them telling lies, stealing, and mastering each other acting like snakes of the grafted type. He is easily leading them in the wrong direction with the power of his trick knowledge. Brothers and sisters the devil is taking the children 9,000 miles from their righteous state of mind!!! Now what are we going to do about this universal state of emergency. As a people, as well as a nation. The losing of our children is happening right now as our minds meet as one in the heavens above. come on!!! It's time to save the children I am speaking to the just and true. the universal builders, the all wise true and living Gods and Earths the Blackman and Black woman who "LOVES" the children as the Father taught us what LOVE is through the children know as his what? His five percent. The Father showed and proved to us the blue print to save the children from all the devils ills of the world and it's the science to everything in life LOVE, PEACE, AND HAPPINESS. Now what child you know doesn't want to live in these realms? I beg your pardon I never heard of one. Now do you see what must be done, and why it must be done. saving the children has no beginning nor ending it's a full time job Now I'm asking who's up for the job!!!! **Save the children**

Peace this is from the mind of your brother in life, love, and Allah's building

DJ WISE

Have you gotten your DJWise CD?

The illustrious entertainer and no crowd complainer **DJWise** comes back to bring us a new CD, specifically for the upliftment of our young.....called SUPREME Wisdom. Fortunately, **DJWise** was able to take a few minutes and give us a breakdown about the construction and inspiration of the this new project.

CeeAaquil Allah: Peace God, Willfully all is well within your cipher. Thanks for taking the time out to give us this interview

CeeAaquil Allah: So god, tell us about this new cd and what inspired you to create it?

dj: Peace Almighty. Thank you for having me featured and I think this publication is excellent for our youth.

As a man with knowledge of self and a proud parent, I wanted to create a CD that the whole family could enjoy. Something that can inspire those without knowledge & reinforce those who already have it or learning. Too much of today's mainstream music & videos has negative elements, images & topics our kids don't need to digest 24/7. This is an alternative to that. You can turn off the TV & fill the house with consciousness in the atmosphere. Download the music & listen to it in your computer or iPod to keep your mindset in tune with Mathematics.

I'm feeding the right foods!

CeeAaquil Allah: What type of music is on the CD?

dj: It is a mixture of Hip-Hop, R&B, Reggae, and Spoken Word Poetry.....some speeches as well.

CeeAaquil Allah: When constructing the cd did you already have a plan as to the type of artists you wanted on there? I imagine you had to dig into the crates a little bit, huh?

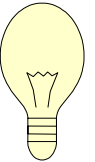

dj: First and foremost, I recruit talented Gods and Earths to submit original songs without cursing. This is done via Myspace and email blasts. This generates interest for our unsigned or underground talent. I also use recorded material from major acts such as Brand Nubian, Wu-Tang Clan and Poor Righteous Teachers. So it is a hybrid of old, new & undiscovered talent.

After I compile the best songs, I arrange the sequence they will played and record the project. It is a well thought out process to keep the audience's attention & create a great CD they will

KIDS in the HALL

Peace Family! Have you ever been at the parliament and been building on something real heavy and then a young child comes up to you and tries to sell you some incense.? You politely say no only to discover that you are asked the same question by yet another child, then 10 minutes after that child number 1 comes back and asks you again? So after you ask him who gave them the incense to sell and they can't tell you the name or you ask them who brought them here and they are rendered mute, you politely say to them no or you give the a dollar for their pocket. At this point, have you ever had a light bulb flash in your head? Besides getting pissed off at the obvious vendor bazaar attempt that many have seemed to exploit at our Universal Parliaments, has the thought ever occurred that these children are selling things due to a lack of options?

I am sure you have heard the reflections of those in the past of how the parliaments were on the mountain top. Some of us were even fortunate enough to see pictures of those times, of gods now draped in grey in their youth. What you could also tell, if studying the faces and the atmosphere is the STRUC-TURE. Now, we being ALLAH'S SUNS, are destined to uphold the structure and continue on with the blueprint laid down for us by Allah himself. He stressed, "If you want to see me, all you have to do is COME TOGETHER." Have we done this yet? Do you hope to see the day when the gods take the devil off our planet? Nation, that day is now. And after you take him off the planet, out of your MIND, then you have to PREPARE the children to not ALLOW the devil to exist on their planet...and have control over their minds. Is there anything more beautiful than seeing a child YOU KNOW manifest themselves in a righteous way that you have not seen them do before? I loved it when the Young god, from Now Just, his name escapes me right now, would come to the head of the parliament and quote the first degree in the 1-14. Why isn't the devil settled on the best part of the planet earth? Because you took him off it! That young god was now prepared. It is then up to him to keep elevating, YET, up to us to keep providing a place and an avenue for him to develop. In 1999 we took the former library, which was next to FB Prince Allah's room, and made it into a resource center equipped with computers. The first ever at Allah's School, that my dear friends have paved the way for there to be a computer lab at the school currently which is open to ALL children. That's stepping stones God's and Earth's.

I remember being in the gym and my big brother Blacksun got down on the floor in a cipher with about 5 children and rolling a matchbox car back and forth to one another after three of the kids were hogging the car. This in turn was an application towards a social equality that manifested itself because the god, took a little time and gave the babies WHAT? ATTENTION! Now, I would have gotten on the floor as well, but then who would have helped us both off the floor? <laughing> Two big gods rolling on the floor trying to get up, woulda been on YOUTUBE!! That same day, I had to explain to the gods shooting hoops on one end that you don't have to play one on one with the only ball but a four on four and still have a good time. Equality in application!

I know some think the answer to getting these children involved or more into their lessons is for them to sit in the auditorium and listen. Mainly because that is what YOU HAD TO DO back in the days. Different day different time, yet same principle. We have to get INSIDE their minds!

Children of the CORN

From the mind of the true and living god, manifested through the pen, I greet you in our Universal greeting of PEACE! From the days of old, corn was a crop grown in the harshest of soil, during the harshest of times used to feed the masses. Similar to the grains used to spring forth life, our seeds of life will spring forth anew and show and prove the mathematical blueprint for success laid down to us by almighty god Allah. Just how are these seeds of life to grow?

Looking at the state of emergency that we are in as a civilized people in the wilderness of North America, we see the vast majority of children struggling to make the grade and graduate. The percentage of High School dropouts, Teenage pregnancy, Teenage imprisonment and the rise of violence in the streets are at an all time high. The irony of this all is that many of the children that populate these percentages are OUR children. Not just our children as in black children, our children as in RIGHTEOUS CHILDREN OF THIS NATION! Are we so righteous that we have forgotten to cut the head off the snake and have allowed him to sting our children? It is said that a nation can rise no higher than its woman, yet, a nation can not have ANY type of future without its children!

In the 18th Degree of the Lost Found Muslim Lesson #2 it explains the duty of a civilized person. In the 14th degree of the lost found Muslim Lesson #1 when speaking of the meaning of MGT and GCC it states towards the end "sew, cook, and in general how to act at home and abroad." The basis of the Supreme Mathematics is to lay the foundation of what is to come. When a student is enrolled, he/she receives the 1-10 to lay the foundation of 120 degrees starting with the explanation of their own existence. Thus, by being civilized and doing your duty as a civilized person, which is to TEACH he who is savage (or he/she who does not know) CIVILIZATION, RIGHTEOUSNESS, the Knowledge of THEMSELVES, and the science of love, peace and happiness. I repeat, it is to TEACH CIVILIZATION FIRST! First at HOME then ABROAD, as the 14th degree states. When learning about who and what one is, the child (in mind and/or body) is prepared to receive the knowledge of themselves and become enrolled into the study. Primarily, what is happening within our nation is that many of us are either ill prepared to be the Supreme Teacher and example to our children and allow them to go disaccording to their true nature. It is not their fault, it is the fault of the civilized! Do you disagree? We spend so much time getting caught up into building on degrees and making sure other GROWN MEN and WOMEN are "holding it down" that the APPLICATION of the science is thrust aside. Since when do the poor righteous teachers no longer have the best interest of the children?

Children are our greatest natural resource! We must raise these children with the moral fabric that has been taught to our first born when they were young since the beginning. Brotherhood and sisterhood is where it's at! Teaching our children to love themselves and love their BROTHER! That is the only way that our babies will begin to unite and move as one! This will contribute to the decline of violence in the street. All too often we can see the inkling of the dead world creeping up in our children when they are out of their parents eye. If they can do that at a parliament, what do you think they are doing in the streets? We must teach our young BLACK QUEENS that they are divine and should hold themselves in a high accord because they are gods blessing. WE HAVE TO DO THIS! Our young queens need the support of the men in their lives, the TRUE AND LIVING GOD in their life to show them what they NEED TO HAVE IN THEIR CIPHER when it becomes time for them to participate in their own. And BLACKWOMAN, you are needed to be that example as well. Who are they trying to be? Are you truly living up to be the complement to God by knowledging God and manifesting the beauty of the culture? YOUR CULTURE! 3/4ths is not going to make you nor break you, however, why are you not doing so? And by doing so are you the one wearing that refinement yet behaving so UNREFINED. Yeah, I think you know who I am speaking about. If the shoe fits! Yet and still, it goes from Knowledge to Born and Born back to knowledge (as the saying goes), and we see that ALL THE ABOVE IS caused by the son of man. Are you the crown or flag wearer just on parliament days? Are you god in your house ONLY? The cream of OUR crop needs you Blackman!

Preparation. Are our children prepared? Public School grades suggest that the majority of our children are not prepared. Do we go over homework with them or are we still letting the boob tube put subliminal messages in their minds so they can be desensitized to the killings, to the drugs, to the HOMOSEXUALITY, and to the blatant disrespect that we show to our women and ultimately ourselves? I remember not too long ago when the Show and Prove had a balance of talent being expressed and was a righteous affair. Now, we have dance groups wearing half-a-nothing doing gyrations on the floor. Yeah it may be in the videos but we don't live in the video. What images are we showing our children. I can recall when we had book fairs, gave out certificates of merit for good grades, and there was one cipher that was dealing with the children. ONE CIPHER. If the parents can't get it together then how can the children ever get it together. God's arguing about NOTHING in the hallways, kids running amok through the parliament without supervision. We are setting the stage for our children to not take this knowledge seriously and in the least to use parliament time as an avenue for no direction.

God and Earth, we have to utilize our resources and remember that if it aint about the children, it aint about NOTHING! When it comes to the children, are we giving all we have and all within our power? Do you realize the hereafter is now! The time is NOW to prepare our children. They are the crop that has been planted and needs the food of life to nourish them. Will you be the one hoping to see the day when Allah in his own good time takes the devil off his planet or will you be the one taking the devil off the planet to allow OUR FRUITS OF LIFE the ability to grow without being impeded. Many of the issues in the world will always exist, yet if we are doing our duty, truly doing our duty which is teaching and REACHING the children, they will be prepared to tackle the world. And the seed will blossom and become the rebirth. **PEACE**

DJ WISE

want to listen to all the time.

From the tremendous feedback from Supreme Wisdom, **they demanded Supreme Wisdom Vol. 2**

CeeAaquil Allah: I know that's right! How was it distributed? Did you charge anything for it? I must say I liked how you had the young queen at the beginning. Any plans on doing something similar in Vol.2?

dj: My young Earth, Queen Jhomari was my inspiration, and I wanted this project to be special for her, so I included her on the intro & she was with me at the studio when I recorded it.

dj: The CD can be purchased from on My Space (www.myspace.com/djwiseonline), and shall be available soon at Allah's School In Mecca. The locations shall be updated on the My Space. The CD is a fundraiser for our non-profit organization & projects we are developing.

dj: Just as the girls scouts have cookies, the CDs will assist us to create future opportunities for the youth in our Nation & community.

CeeAaquil Allah: So when do you think you will have Vol.2 coming out and are you currently working on any other projects?

dj: My goal is to have it complete by the Show & Prove 2008. The following projects will be an all Earth CD, and the an all Youth CD, this way I'm showcasing all the talents we have. Anyone who is interested can send their high quality MP3s to: djwiseemp3@gmail.com

CeeAaquil Allah: Peace god, I must say that the CD was PEACE!! I have a few of the tracks on different cd's but never as a collective. This is definitely something to have in the rotation! Thank you god for your time, I know you and your DJ team are doing big things and working hard. Keep up the good work god...do you have anything you would like to add before we conclude?

dj: I started DJing the Show & Prove in 1999 and many of the Nation's events in Now Y ever since out of love. It was great to see the Show & Prove 2007 get coverage in Straight Stuntin' Magazine. My DJ team, Chop Squad is doing our thing internationally & we look to do bigger things in the near future. I've been DJing professionally since I was 14 & look to put some youth under my wing so they can learn also. Anywhere I go I rep the Nation to the fullest. Let's put our knowledge, resources, talents, and skills to work so we can build a more powerful Nation. The babies are the greatest!!

KIDS in the HALL

THEM to build on it perhaps or YOU get up and build!! If you were a child, nowadays, and came to a parliament would YOU want to sit in that auditorium and listen to some of these GODS. NO WAY! Some of us take the easier way out, if you HAPPEN to bring the Earth, then she can hold them down, or they can go watch themselves. Go into the gym. I went in the gym one day and got smacked with 3 balls upside my head before I got halfway across the room. Should I be mad at the children? no. No direction. To an average person entering the gym you would have thought Musa would have a hard time civilizing these children because it often appears like they lost ALL knowledge of themselves and living like beasts. Like savages. One thing that we MUST ALL KEEP IN MIND, they have not been taught yet. They are not savages though. If anything, they are the product of neglect and

What do you think we can do to make their time at the parliament more constructive? I recall buying a15 chessboards and bringing them to the parliament for the children to play with. It worked well for a minute. Maybe we can have a chess tournament for the babies. We talked about that before but who is interested in adding on? One can bring the spark yet how many different things can that one person do, AT THE SAME TIME. There is enough room for us all to build. As long as you get in where you fit in.

When we come out, we have to come out together! We have to show the babies that we can unite on one common cause and MANIFEST SOMETHING! How can we expect them to come together and build together and not RUN THROUGHOUT the parliament if they DO NOT have anything else to do. Creation! We have to create a cipher in which they are allowed to be creative, encouraged to be productive, and celebrated when they are SUCCESSFUL. Instill that PRIDE into our children. Show them the LOVE that we have for them and this NATION. They are our future! We have to UNITE the seeds! Is that not what our father instructed to do? UNITE the seed. Remember, in order to unite them, we have to LISTEN to them. We have to do the knowledge to them, their minds, their desires, their direction, and have their best interest at heart. We have to God and Earth. Let's get our children out of the halls of the parliaments and into the mind frame of higher education. Into our own programs that we created for our own children's upliftment.

Let's get them out of the hall and into the classroom! In mind and in body! **PEACE**

Question#1

P.S. from one of our favorite songs to you: I'll always love my Mama she's my favorite Girl, **you only get one!**

HAPPY MOTHER'S DAY!!!

In the words of Lawrence Fishburne from the movie School Daze, "WAAAAAKE UP."

Using our third eye, our minds, we can see many things that the naked eye can hardly detect. What's going on nowadays, one can be blind, deaf and dumb and STILL be able to read the WRITING ON THE WALL!!! Are our children that blind that they cannot see this? Have we done that poor of a job to not prepare them to see these things? Allah is seen and heard everywhere for he is the all-eye seeing. Are we preparing our children to see and be SEEN and heard? Do they see what's going on? DO YOU SEE IT? Do they even care! We have to formulate a parallel to what our children see and hear everyday and show them what is REALLY going on. It is deeper than it appears.

One of the richest and most famous people throughout the world is Hip Hop entrepreneur and entertainer is 50 Cent. Ironically, there is another 50 that is gaining momentum and headlines and effects the people in America more directly and it doesn't have anything to do with having a good time. Sean Bell, Trent Benefield, and Joseph Guzman was on the receiving hand of 50 shots not to entertain them, but to kill them. The publics relationship with the police department, regardless of the location, has always been strained. The strained relationship between the PO-lice and the Youth seems to widen by the day with incidents that appear to be increasing daily. After getting shot 9 times as a youth, during what was the start of a promising rap career, the PO-lice went to Mr. Curtis Jackson, (50 cent) in an effort to find out who caused the incident to happen. He chose not to cooperate. To the average PO-lice officer, a black kid is a black kid, and can't tell if a kid has knowledge of themselves or not. The sad part about it is that they don't even care! They are scared to death in our streets! What is the difference between the two children? Nothing!

Would you sit at home and wait for a mystery God to bring you food? Emphatically No! We may know how to quote the rest of the degree and apply it to many situations related to religion, however, do we apply it to everyday life? Emphatically NO! See brothers and sisters, the devil is at work 24/7/365 days. In ALL WAYS! We allow our children to be taught by these schools who do nothing but try to teach them to be consumers. Not entrepreneurs!! Just get through, not

prepare them for what's next. Truth be told that's our job! We allow our children to listen to the 50 cents and the Jay-Z's and think nothing of it. But what we don't realize is that when we allow them to listen to this, couple that with what they DO NOT learn in school, add in what they see on television and we see that we are actually pressuring them into the glorification of that dead world! This world of illusions! When in all actuality, the stark contrast of this imaginary world will come into conflict with reality when they are put in a position looking down the barrel of a gun! Or in this recent case, the receiving end of 50 shots.

I can recall that right after the incident happened, folks were screaming for 50 cents and other rappers to come out and show support. Why are we crying for them. When have they ever. What can THEY do that YOU CANNOT!! Then we condemned them for not being involved with the issues. Lest we look on the other foot and see how many of us were not involved until AFTER the shooting took place. We know what is going on in our community. And in case we didn't, did we find out what was causing the conditions in our community by letting those with the knowledge teach us. When will we cease to put ourselves in a reactionary position? Why must we wait until after the lack of justice is shown to complain and petition and check these laws and TRY to become unified? Being GOD and EARTH and CIVILIZED is not a part time job.

So when we sit at home and wait for someone to correct these wrongs and when the anger about this situation dies down, will you think about what's in store for our children? What awaits them? Who is guiding these children? The music? The movies?

What will you do when that phone rings in the night and it's regarding your child that went to the movies? Let's get back to raising our own children. Don't leave it up to someone else. Don't let 50 be the person to guide your child, and don't let them be the proud recipient of 50 shots either. They may not be as lucky as those other two brothers that were not Sean Bell.
